How confident are you in

performing a clustering on your data?
(k-means or hierarchical, with hyper-parameter tuning)

How confident are you in

the difference between train/validation/test sets and why we care?

How confident are you in

your ability to create a single decision tree classifier on your data?

(not necessarily the absolute best, but reasonnably optimised)

NOBODY EXPECTS
LEAKAGE
THE INQUISITION!
memegenerator.net

How confident are you in

what leakage is?
